

# WE CAN'T WAIT TO SEE YOU!

Our office is open to see our current and new patients! We are following the recommendations of the ADA and CDC during this time and continue to provide our patients with outstanding, safe orthodontic care. Our office may look a little different for a while when you come in, but we are committed to our patients' health and safety.

Please continue your home care until we see you in the office. (Heck, why stop there? Keep up the great home care after we see you, too!) By way of reminder: Brushing should be gentle, gentle, gentle, and take your time! Flossing should be consistent (daily) and hand flossing is best. Brush the back of your tongue using lots of water, and be kind to your chompers throughout the day (keep your jaw muscles relaxed the best you can)!

See you soon,  
Dr. Harvey, Dr. Allen, Dr. Mian,  
and the Summit Family Orthodontics Team

## WHEN YOU VISIT, PLEASE:

 <p><b>Wear a mask!</b> We will be wearing them, too! Homemade masks or bandanas are perfect!</p>	 <p><b>Avoid shaking hands.</b> We have eliminated hand to hand contact for now. (See below for some fun alternative greeting methods)</p>
 <p><b>Allow us to take your temperature.</b> If your temperature is over 100.4 degrees, we will reschedule your appointment.</p>	 <p><b>Utilize Hand Sanitizer</b> It will be available throughout the office and we will be sanitizing "patient-touch-areas" between appointments</p>
 <p><b>Practice social distancing</b> To properly space patients, we also may have fewer options when scheduling your appointment.</p>	 <p><b>Call us to reschedule if you have a cough or fever, or have been exposed to COVID-19 in the past 14 days.</b> We will screen you again when you arrive</p>
 <p><b>Limit the amount of people you bring with you.</b> If you do need to bring people with you, please have them wait in the car, if possible.</p>	 <p>Our waiting rooms will not have items like magazines, toys, etc. as they are harder to clean and disinfect</p>
